SPECIES and/or NATURAL COMMUNITY | Aquatic Terrestrial Both Township Occurrences Watershed Boundaries ★ State Natural Area

This map represents the known occurrences of rare species and natural communities that have been recorded in the Wisconsin Natural Heritage Inventory (NHI). Colored sections indicate the presence of one or more occurrences within that section. Hatched townships indicate one or more occurrences reported only at the township level. The date following the names above notes the most recent year the occurrence was recorded in the county.

Map generated using NHI data from: 05/31/2006
